

Why should you make quality the star?

Our high standard of quality is at the core of everything we do — because quality doesn't just affect your reputation (and ours), it also has an impact on your reimbursement and, most importantly, patient care. That's why we don't outsource to multiple vendors: the varying standards of sub-vendors subject you to varying risks, and no one has the same commitment to quality that we do.

Patient experience is one of the focal points for measuring a hospital's quality. Physician quality has a daily impact on not just patient experience, but on your bottom line. We take that very seriously — your success depends on our success, bringing the best talent to you at an affordable rate.

38 OF THE 57 HOSPITAL STAR RATING MEASURES ARE DIRECTLY TIED TO PHYSICIAN QUALITY.

PEACE OF MIND BEFORE YOU EVEN SEE THE PHYSICIAN

More than 250 tenured experts in credentialing, quality assurance, risk management, privileging, and licensing ensure faster fills and better matches. Our investment in people is a manifestation of our commitment to quality — no one does it better.

Our Putting-People-First focus leads to better matches for your facilities. Put simply, if we take care of our people, they'll take care of our providers and clients.
